The Bike Shield Assembly Instruction

You have just purchased the most advanced and practical motorcycle storage solution on the market. Please check "Frame Tube List" and "Bolts List" before you start assembling. Follow assembly instruction from "STEP 1" to "STEP 7" in order.

The Bike Shield carries one year warranty against manufacturing defects in materials and workmanship. The Bike Shield is supposed to be fixed on the ground using the cross plate and anchor bolts so that it prevents The Bike Shield from falling down in high winds. It is also recommended to place The Bike Shield against the wall. Under customer's responsibility, The Bike Shield has to be secured to prevent any accident caused by strong wind, heavy snow or other natural disasters. Warranty does not cover defects or damages caused by accidents, alteration, improper installation, fire, earthquake, flood, lightning, storm, and other natural disasters.
